Your Suggestions To Improve the Technical Supplement To Be Implemented in 1995

Several changes to the Administrative Notes Technical Supplement will be implemented in the January 31, 1995 issue. These changes respond to suggestions made by depository library staff:

- Create new column: **Update to the List of Classes (New Item Numbers)**. Put all other changes in **Update to the List of Classes (Miscellaneous)**.
- Create new column: **Missing Shipping List Alert**. Will list any shipping list numbers not used.
- List the last paper, microfiche, and electronic shipping list numbers of the year.
- List the correct item number for a document, as well as the wrong number it was sent under, in the Classification/Cataloging Update.

We thank all those who took the time to send in their suggestions, and hope that these changes will result in a more useful publication.
